DETAILED ACTION

1. Claims filed April 10, 2007 has been entered. Claims 1-71 have been cancelled. Claims 72-89 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(f) he did not himself invent the subject matter sought to be patented.

2. Claims 72-89 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter.

Kapeller-Libermann et al. (US 2004/0058355) disclose antibody against 21967 encoded protein LOR-2 (pages 66 and 102-105). The protein 21967 Lor-2 has 100% amino acid sequence identity to SEQ ID NO:11 and will inherently have the Lor-2 activity.

Applicants argued that Kapellar-Libermann et al. cannot be 102(e) because the priority claims the same parent applications. However, the inventors are not the same in both application.

3. No claims are allowed.

4. Applicant's arguments necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Pak whose telephone number is 571-272-0879. The examiner can normally be reached on 8:00 - 2:00.
